M788

Made to last, built to perform

NO DETOURS.™

Bandag M788 Trailer Winter

Highly durable for excellent mileage.

Superb stability in the SNOW for better performance and complete safety.

Outstanding handling performance for even the most snowy conditions.

Premium retread winter solutions by Bandag

You've checked everything in your truck, from the mechanics to the electrics. But did you remember your trailer? You want to be confident the enormous weight behind will stay on the road when you're moving, and stop quickly and efficiently when you hit the brakes. With the M788 tread from Bandag, you'll have nothing to worry about, not even in snowy conditions. The advanced tread pattern makes driving safer, easier and more efficient when winter sets in.

Plus, the Bandag M788 is made from highly durable compounds that add to the lifespan of your trailer tyres, ensuring you get the maximum mileage possible. It keeps you on the move no matter what season it may be.

Featuring Bridgestone technologies

The Bandag M788 tread is based on the well-known Bridgestone M788 winter tyre, incorporating similar technologies:

- *Dual Sipes* improve wet/winter performance as well as reducing stone retention, ensuring good handling and long casing life.
- The *Variable Depth Sipes* allow for higher density in the tread. In the wet, your tyres perform better, with better braking power.

The final result? A trailer tread designed to provide superior performance and excellent mileage throughout the winter.

The Bandag M788 is the perfect tread to extend the life of the Bridgestone M788 new tyre.
