

BANDAG[®]
BRM1

Tough when it matters most

NO DETOURS.™

Bandag BRM1

All position - On/Off

High mileage potential with excellent cut and chipping resistance.

Great durability with high resistance to stone penetrations.

Good resistance to irregular wear thanks to an advanced pattern design.

Versatility allows you to cope with all kinds of surfaces, from urban to extreme off road.

Tyres in the ON/OFF segment have a hard life. They are operating on a wide range of surfaces varying from very soft to sharp and abrasive. In combination with always increasing engine power and heavy loads, it's no wonder the segment suffers high damages.

The Bandag BRM1 is designed to withstand all these challenges. An aggressive rib design enables versatile usage on all axles of trucks and trailers in mixed on/off service. The high performance compound provides excellent cut and chip resistance and slow wear, leading to more mileage.

The application of Bridgestone technologies contributes to a long tyre life in all your On/Off applications: the *Stone Ejectors* minimise stone retention and penetrations and the *Tie Bar* enhances stiffness of the tyre which lowers heel and toe wear.

The BRM1 is the perfect tread to extend the life of the Bridgestone On/Off tyres.
