R-DRIVE 001+

Built to go the distance.

Part of the Bridgestone Group

Bandag R-DRIVE 001+

Drive Regional – Highway

Outstanding mileage

Advanced materials and robust construction for extended wear life; the perfect match for the new and improved Bridgestone R-DRIVE 001 PLUS drive tyre.

Excellent resistance to irregular wear

Employing the latest pattern and compound technologies developed by Bridgestone.

All-seasons safety

With both M+S and Alpine markings, for reliable braking and cornering, even in tough winter conditions.

Versatile, consistent performance

Adapted for both regional and highway use, to help you get even more out of your valuable tyre casings.

Changing road conditions, heavy payloads, variable distances and unpredictable weather conditions... As a regional operator, you need to be ready for anything. And so do your tyres!

Which is why Bandag developed the R-DRIVE 001+ tread! Delivering the durability, safety and cost-effective performance you need to take your tyres further and your business along with them.

The Bandag R-DRIVE 001+ is engineered to extend the performance of your tyres across a wide range of applications, vehicle types and operating conditions: from regional to highway usage and from general cargo to specialist transport. In fact, once fitted, these could very well be the only drive tyres you will ever need!

The tread's unique unidirectional pattern really grips the road, ensuring confident braking and handling even in wet and wintry conditions. Integrated tie bars, in turn, significantly reduce heel-and-toe wear, ensuring long tyre life.

The Bandag R-DRIVE 001+ is the ideal tread for extending the life of the Bridgestone R-DRIVE 001 PLUS and other premium drive tyres.
