R-DRIVE 002 **R-TRAILER 002**

Uncompromising.
Boosted wear performance.
Minimised cost per kilometer.

Part of the Bridgestone Group

Bandag R-DRIVE 002 | R-TRAILER 002

Drive | Trailer – Regional

Boosted wear performance

Get even more out of your tyres with up to 15% more mileage vs predecessor.¹

Minimised cost per kilometre

Profit from a 10% reduction in total cost per kilometre vs predecessor.²

Optimised fuel efficiency

Lower rolling resistance, 4% less in drive and 16% less in trailer vs predecessor.³

Year-round safety

Power through even the harshest winter conditions with M+S and Alpine markings.

To make it in today's highly competitive transport industry, fleet owners and operators need to be more efficient, more versatile and more resilient than ever. Today, increasing demands on the transportation industry mean fleet owners and managers need to maximise their productivity and minimise operational costs.

That is why we developed the all-new Bandag R-DRIVE 002 and R-TRAILER 002 treads. Specially designed to deliver excellent mileage across the widest possible range of applications from regional and highway to urban use. So you can get even more out of your valuable casings while

also increasing up-time, boosting safety, enhancing environmental performance and ultimately, saving money.

The Bandag R-DRIVE 002 and R-TRAILER 002 treads are not only built to go further but also to consume less fuel on the way.

The R-DRIVE 002's advanced compound, for example, is matched by a unique low-energy pattern with shoulder tie-bars and 3D sipes that dramatically boost wear life while lowering fuel consumption. Special Y-shaped grooves, on the other hand, improve both wet safety and fuel economy for an even lower cost per kilometre.

The new shoulder design on the R-TRAILER 002, on the other hand, integrates Bridgestone's advanced "miniwing" shape.

This ensures an even more reliable fit to your casings and excellent resistance to cracks and tears in the shoulder region. Together with the tread's unique built-in stone ejector system, that means greater resistance to damage and even longer tyre life.

Offering outstanding mileage, durability and safety, the Bandag R-DRIVE 002 and R-TRAILER 002 are the perfect treads to extend the life of Bridgestone DURAVIS R002 tyres.

Total Tyre Life is built around Bridgestone's premium new tyres and Bandag retreads, the best match to extend tyre life and reduce cost per km.
