# Bandag W990+ Drive Winter

Optimal traction and braking, also in snow, for better performance and security.

Excellent stability ensuring safety and efficiency.

High mileage potential.

## Bandag winter retreads

You belong on the road. With the W990+ from Bandag, not even winter conditions will stop you from driving. The W990+ keeps you on to the road, no matter how wet and snow-covered conditions might be. Its specially engineered tread and winter compounds ensure safety and efficiency thanks to good grip capacities.

## Featuring Bridgestone technology

The Bandag W990+ tread is based on the well-known Bridgestone W990 winter tyre, incorporating similar technologies:

- The *Equaliser Rib Design* that evenly distributes pressure to stop uneven or wavy tyre wear, resulting in a longer lifespan.
- The *Convex Block Design* that reduces stress on the edges of the blocks. This results in a drastic reduction of heel-and-toe wear, leading to longer tyre life.

Make winter roads safe roads.

You'll appreciate the W990+ when you brake and drive and when you arrive at your destination, safe and sound.

The Bandag W990+ is the perfect tread to extend the life of the Bridgestone W990 new tyre.
